ITALY

The foot-base re-enforcement construction is removed from The foot. Please ask manufacturer if this is ok.
We have our doubts about the sturdiness and balance of the whole tripod. (examples)

Please ask manufacturer what can be saved in USD by removing this part? (examples)

When a load is added, for example LED lighting armatures we need to know if the foot is stable enough without the re-enforcement.

Packaging goal(s):

Packaging is important. Please specify requirements for packaging.

If printings are required, please add the files for logo and text.

Maximum packaging cartons length should be no longer then 100cm. (dimensions of the carton boxes)

Therefore, the length of all tubes is reduced to 96 cm. leaving 2cm spare room on both size for packaging.

(examples)

Explanation of finished product(s):

Remark!

Explanation of the finished product in detail.
